

## Why White slavery is unknown today

The global elite through the vehicles of US trust foundations (such as the Rockefeller Foundation, the Carnegie Endowment, the Ford Foundation etc.) conspired and determined to take over education in the west, and particularly the study of history. They did this through giving grants to chosen people and specially training them, finally taking over school curricula (today it is done by elite Common Purpose graduates). This was done from 1908 onwards and was very successful. This gave the elite gradual control over people's thinking and preconceptions. By whitewashing history the elite could bring about conditions favourable to their other plans.

Thus the elite were able to alter the causes of the two world wars and many facts about these wars, or the real perpetrators of the Russian Revolution and so on. Today, the elite promote the story of continual White victimisation of Blacks and castigate White privilege in order to foment civil war and to denigrate Christian values in society. Thus the extent of White slavery was downplayed to the point of evaporation while elite-controlled media constantly show the plight of Black slaves in films and documentaries.

The elite's narrative is that slavery is a historic condition of Black people. Having suffered under white supremacy, western nations now owe all Black people reparations and privileges. This narrative is ramped up in propaganda multiplied by education systems and western mainstream media so that Black people have engaged in a crusade of hate and violence to white people in America, even burning the American flag of the nation that freed them from slavery. Such fomented civil unrest is exactly what the elite want to destroy America.

However, the historical facts are that for millennia it was White Europeans, Indians, Chinese and other races that were enslaved.

### Facts

- Are White democratic westerners only to be blamed for enslaving Blacks? No! Most historic slavery was conducted by Muslims (Arabs, Turks, etc.) and to a lesser extent by Jews and others. Blacks enslaved other Blacks in Africa. Even Cherokee Indians enslaved Blacks in America on their plantations. White westerners capitalised on Black slaves for about 200 years after 1650.
- Were only Blacks slaves? No! Throughout history most slaves were White or Eurasian.
- Did Blacks ever own White slaves? Yes. In fact Virginia enacted a law in 1670 to prevent Blacks from owning Christians.
- Did Blacks own other Black slaves? Yes, it was common both in Africa and America.
- Were there White slaves when Blacks were free? Yes; throughout the 17<sup>th</sup> century.
- Could Blacks vote before abolition? Yes. Blacks voted in Carolina in 1706.
- Did Blacks carry guns before abolition? Yes. Blacks owned guns in the service of landowners when thousands of White men were forbidden them. In 1678 1,000 Blacks were armed into a militia for protection from the French. In the 18<sup>th</sup> century Carolina and Virginia had armed Black militias. Black soldiers helped the British in the War of Independence and the War of 1812. In fact Blacks helped the British burn down the White House.
- For centuries there were more White slaves than Black. This was because White slaves were far cheaper. Stealing poor White people in England cost almost nothing. Gaining Black slaves from West Africa meant paying the price of the Black chiefs that captured them, then paying the price of the Black slave-traders that transported them from the interior. For centuries getting slaves from below North Africa was beset by great logistic difficulties. Thus Egypt, Ethiopia, Libya, Tunisia etc. were targeted by Muslims.
