

The Cabal: Basic Principles to Understand

Introduction

This is a very simple, basic paper to explain who is controlling the world and what their essential goals are. This group has various names but I use the terms: 'the Global Elite' or 'the Elite Cabal' - a secret elite conspiratorial society.¹ This paper is intended for those who know nothing about the subject.

I will not give numerous sources and references in this paper, having done that multiple times. I intend to focus on lucid brevity in an overview.

The essential premise

There is a body of super rich people who have controlling power over finance, banking, commodities and corporations who essentially control the world; especially the Western and developed worlds (i.e. the G20). Though going back centuries, over the last 150 years they have consolidated their power so that they now fully control national governments and have infiltrated all positions of authority in Western culture and advanced nations.

They control all media so that it speaks with a single voice to propagandise populations and censor opposing voices. They control education systems so that the young are conditioned to accept their narratives without questioning. They control the judiciary and police forces so that populations are restricted from serious dissent or obstructing their policies. They control all medical care systems so that they can hinder the health of people and profit from sickness in eugenicist programmes. They control all central banks and keep nations in unnecessary debt slavery using boom and bust cycles for profit. They control the military industrial complex, which requires constant war for profits. They control all secret services and use them to oppose dissent instead of external enemies. They control food production, water supply, air contamination, trade, war, revolutions, and every facet of life.

Example of control: climate alarmism

This is based upon the lie that anthropogenic² CO₂ is harmful and causes global warming to the degree that we are in a climate catastrophe; '*the earth is boiling*'.³

This is sheer nonsense and absolute stupidity with no scientific basis whatsoever. Yet the whole world is dominated by climate alarmist, Net-Zero policies to destroy societal prosperity. Governments, educators, media voices, fake scientists, the UN (the IPCC), and everybody in authority parrots this nonsense that has no evidential basis.

For example, CO₂ is not only beneficial but is an essential molecule for life. It is a miracle gas that feeds plants, which then produce oxygen. The more CO₂, the more green the Earth.

¹ Other terms include: 'the Shadow Government' (the ruling power behind national governments); 'the Deep State' (the real, hidden state power); 'the Illuminati' (a secret society comprising of Jews that arose in 1776 to subvert European governments but then morphed into multiple new forms over time, such as the Jacobins in revolutionary France).

² Caused by humans.

³ Stated by various EU politicians.

In the past, CO₂ was at much higher atmospheric concentrations than today (420ppm) being as high as 7000ppm in epochal history. Science shows that historically, CO₂ rises have always followed (not preceded) warming of the earth. In fact CO₂ build up in the atmosphere becomes saturated and does not warm the earth. The recorded historic past experienced much warmer periods than today which were always times of prosperity, such as the Medieval Warm Period or the Roman Warm Period when grapes were grown in the north of England. Net Zero emissions is impossible since humans breathe out CO₂ all the time. Natural causes see much higher outputs of ‘greenhouse gases’⁴ than mankind, such as volcanoes or termites.

We could go on. CO₂ is wonderful; getting rid of it is stupid and impossible. Net-Zero requires collapsing industry and creating poverty. To achieve its current goals will cost many trillions but will not change climate one bit.

An absolutely insane narrative with no scientific evidence was pushed by the Cabal in order to establish control over populations and global natural resources. This plan was developed by the Rockefellers in 1956 to control the world. Yet everyone accepted it because all of society promoted it. The Elite controlled the narrative so everyone followed something dumb.

The eternal story

What is going on today is but the external expression of a much greater battle with a long history.

- There is a battle between the forces of good and the forces of evil that has been raging since the beginning of the world. This warfare is played out on the Earth.
- The good is centred in God, the Creator of the world;⁵ the Father of the Lord Jesus Christ,⁶ who controls all things according to the purpose of his will.⁷
- The evil is centred in Satan (lit. ‘adversary’, ‘accuser’), the Devil (lit. ‘slanderer’), Beelzebub,⁸ the father of lies (Jn 8:44), the tempter (Matt 4:3), the current god of this world/age controlling it through sin (2 Cor 4:4), the prince of the power of the air (Eph 2:2), the wicked one (1 Jn 5:19). Satan is a creation of God; a fallen angel. His army is those angels that fell from heaven with him becoming evil spirits (Lk 7:21), demons (Matt 7:22).
- Satan and a third (Rev 12:4) of the heavenly host (angels) rebelled against God in heaven and were cast out to the realms above the Earth.⁹
- Satan seeks to usurp God’s ownership of the world¹⁰ and take control over all his creation; chiefly people.¹¹ However, it is God that really controls people and nations (Deut 32:8;

⁴ The very idea of ‘greenhouse gases’ is disputed.

⁵ Isa 40:28, ‘The everlasting God, the LORD, The Creator of the ends of the earth, Neither faints nor is weary. His understanding is unsearchable’.

⁶ Rm 15:6, ‘glorify the God and Father of our Lord Jesus Christ’.

⁷ Eph 1:11, ‘the purpose of Him who works all things according to the counsel of His will’.

⁸ Beelzebub (Gr. form Beel'zebul), the name given to Satan, and found only in the New Testament (Matt 10:25, 12:24, 27; Mk 3:22) It is probably the same as Baalzebub, the god of Ekron, meaning ‘the lord of flies’, or, as others think, ‘the lord of dung’, or ‘the dung-god’. [Easton’s Bible Dict.]

⁹ Rev 12:9, ‘So the great dragon was cast out, that serpent of old, called the Devil and Satan, who deceives the whole world; he was cast to the earth, and his angels were cast out with him’.

¹⁰ Ps 24:1, ‘The earth is the LORD’s, and all its fulness, the world and those who dwell therein’.

¹¹ Matt 4:8-9; Jn 14:30, 12:31, 16:11.

Ps 47:2; Dan 2:27, 4:17, 32, 5:18; Acts 17:26); he allows Satan to prosper under his control for his own reasons.

- Satan works in people by deception. This is the chief tool that he uses.¹² It is vital to understand this.
- One method of deception is to gather people into an empire so that he can control the world through proxies (Rev 20:1-3). The various world empires of the past were attempts to gain total control, but these were cut short by God in his purpose.
- At the end of this world God allows Satan to establish a world empire based upon evil, idolatry, Satanism, riches, hedonism and blasphemy (2 Thess 2:9-10; Rev 20:3, 7). This is to demonstrate the fulness of sin in mankind (2 Thess 2:3). It is cut short by the return of the Lord Jesus in glory to terminate this world (2 Thess 2:8).
- These are the characteristics of this final empire. It worships Satan (Rev 13:3-4). It is full of demonic activity and ideologies (1 Tim 4:1; Rev 16:13-14, 18:2). It is full of blasphemy (Rev 13:5-6). It persecutes Christians and hates the church (Rev 11:7, 13:7, 16:6). It is iniquitous (Rev 18:5). It is full of idolatry and occultism (Rev 9:20, 13:8, 12, 15, 14:9-11, 16:2). It is full of luxury, entertainment and hedonism (Rev 18:7, 9, 12-13, 16-17, 22). It is rich through trade and commerce (Rev 18:3, 15, 16-17, 19, 23). It is founded on *pharmakeia* (sorcery / pharmacy; Rev 9:21, 18:23). It is full of immorality and theft (Rev 9:21, 14:8, 17:2, 5, 18:3, 19:2).
- The governance of the world empire is twofold: there is a wicked political system (the first beast from the sea, Rev 13:1); there is a wicked religious world system that supports the political system (the second beast from the earth, Rev 13:11; the false prophet, Rev 16:13, 19:20, 20:10) which is based upon deception (Rev 13:14). The culture of this final beastly political system is called 'Babylon' because it is a centre of idolatry, rebellion against God, fornication, wickedness, and demonic occultism (Rev 17:5).¹³
- To summarise this kingdom: there is a satanic political governance complemented by a satanic world religious system. The character of the final culture is Babylon. The goal is the worship of Satan through proxy systems.

The problem

Most Christians would broadly agree with this summary. The problem is that their idea of it is academic and divorced from reality. They do not understand that this is being worked out right now. They are already in Babylon and don't know it.

Part of the problem is a failure to understand that the Devil was released to gather his kingdom in the mid-19th century; they believe that it is future and sudden. One proof of this release is the destruction of the church through deception, syncretism, corruption and pollution beginning after 1830.¹⁴ Another proof is the massive increase of war deaths, social

¹² 2 Thess 2:9-10, 'The coming of the lawless one is according to the working of Satan, with all power, signs, and lying wonders, and with all unrighteous deception'. Rev 12:9, 'Satan, who deceives the whole world'.

¹³ Rebellion against God first came to a head in Babel (Babylon) in the empire founded by Nimrod. This then developed in Old Babylonia into a false idolatrous system based upon occultism centred in worship of a false pantheon of gods – later exported to many other nations. Thus magic, divination and spiritualism, expressed in idolatry, was developed in Babylonia. Babylon continued as the enemy of God's people throughout time. The modern expression is in the Babylonian Talmud of Judaism.

¹⁴ Despite some large churches existing there are many proofs that the church is ruined. Census data regarding people identifying as 'Christian' has plummeted from over 95% 100 years ago. Churches today are vacuous, irreverent, superficial and mystical. There have been many inroads of occultism and mysticism into the churches. Doctrinal integrity has been demolished. The number of true churches behaving Biblically is tiny. We are truly in the 'falling away'.

fabric destruction, legalised moral depravity and increased depression, isolation and hopelessness.

Christians must begin to understand the connection between modern events and Bible prophecy.

Basic principles about the Cabal

Fundamental principle

World control

The supreme root principle of the Elite Cabal is to achieve a world government that is absolutist,¹⁵ totalitarian¹⁶ and Fascist¹⁷ in character.

- There is already a shadowy supra-governing body that controls nations; especially in the advanced economies (G20). Democracy in the West is a mirage.
- This body is the top 1% of rich people that own most of the world.
- It involves bankers, financiers, corporatists and Elite families.
- In terms of ideology the Elite includes: Talmudic Jews, Kabbalistic Jews, Sabbatean Jews, Zionist Jews, Jesuits, higher-level (above 3rd degree) Freemasons, Neo-Gnostics, Luciferians and pure Satanists. They all submit to Lucifer as the bringer of light. They all hate Christianity.
- In terms of commerce the Elite control: the Pharmaceutical industries, the media industries, the military industrial complex, etc. Most world companies are owned by a very few interests working through Blackrock, State Street and Vanguard investment companies.
- In terms of finance the Elite control the world banking systems. The centre is the Bank for International settlements, which controls all central banks. Plus the World Bank, the IMF, the ECB etc. It is vital to understand that central banks are privately run; this includes the Federal Reserve. The banking system is based upon fiat currencies that are founded upon debt and usury.
- In terms of social and governance issues the Elite control: the education systems, the judiciary, the police forces, the secret services, the medical systems (especially the NHS), medical regulators (e.g. the MHRA is 86% privately funded) and so on.
- In terms of NGOs the Elite develops policies through: the CFR, the Bilderberg group, the Club of Rome, the Club of the Isles, Chatham House, the Trilateral Commission etc.
- In terms of world political influence the Elite work through the United Nations, the World Economic Forum, the World Health Organisation (part of the UN) etc.

The goal of all these groups is to develop complete sovereignty over all people and nations through delegated parties and multiple policies.

Example

Currently, British schools are teaching very young kids radical, explicit, pornographic sex education tools to sexualise them at a young age. This material shocks adults.¹⁸ Parents

¹⁵ All power vested in a single body.

¹⁶ Despotism; authoritarian.

¹⁷ Extreme nationalism combined with corporatocracy.

¹⁸ For example, young children are taught that one method to avoid pregnancy is to use anal sex.

trying to fight this are being stopped by courts. Textbooks are being hidden from parental scrutiny. Rights of parents to withdraw children from these lessons are being stopped.

Where did this come from? It stems from the UN and the WHO that by-passed national governments and gave instructions to local councils to start this operation. There was no parliamentary debate, no manifesto, and no public discussion. The Elite just used the UN to get this done at a grassroots level. It then controlled the courts to stop any backlash.

Thus the Elite perpetrate a crime against children (sexual abuse, psychological damage) with no consideration of national sovereignty. This is because they control governments.

The end game

A re-establishment of the whole civilised world into two strata: a privileged few in complete authoritarian control over the world living like kings; a serf society under fascist domination working like slaves to service the Elite.

Fundamental goals

Depopulation

Multiple Elite figures have stated that the world population must be brought down to around 500 million.¹⁹ This means getting rid of at least 7 billion people.²⁰ This is based on the erroneous theory of Malthusianism.²¹

It is critical to understand this blatant fact. All other matters stem from this. The people in control seek the destruction of 95% of the world population.

Eugenics

Populations are to be controlled according to the restrictions demanded by the Elite. Undesirable types will be eradicated.

Planetary control

The Elite seek to completely control all of the Earth's resources. One key method of achieving this is by using the climate alarmist agenda, which was planned since 1956 by the Rockefellers.

On the basis of claimed sustainability targets (Agenda 2030), humans will be restricted to megalopolis cities and forbidden to enter the countryside, which will be reserved for the Elite. 15-minute cities (being initiated now) is the beginning of this. Citizens will be under totalitarian control in these cities.

Globalism

This agenda seeks to attain global control over every aspect of society: global finance and banking; a global fiscal system; a single global religion, global media; global service economy; a global army; all working under a single global government.

Social control

The Elite seek to completely control every aspect of individual life. They control what you watch on TV; what information you are allowed to see; what you eat (mostly toxic); the air

¹⁹ For example this was carved into granite monoliths in America called 'the Georgia Guidestones'. They stood for decades until recently broken up.

²⁰ World population estimates vary between 7.5 and 8.5 billion.

²¹ That the Earth cannot sustain the world population. This has been proved to be fraudulent.

you breathe (polluted by chemtrails); the water you drink (which is polluted); your medical treatment (which is often toxic);²² etc. They plan to fully control your mobility and stop you flying abroad, stop you driving and keep you in a 15-minute city. They also intend to stop you eating meat, replacing it with insects.

Media control

The Elite already have almost complete control over the mainstream media. A handful of Jewish Elite people control 90% of the press, TV news, journals, magazines, and publishing.

World government

The culmination of Elite goals is to gain totalitarian control over the world through a fascist government.

Key Elite families

There are a number of Elite families that make up the core structure of the Cabal but two are notable.

The Rockefellers

This family is Sephardic Jewish.

The Rockefellers came to prominence with the super rich oil baron John D Rockefeller who actually stated that men like him were destined to rule the world (due to being rich).

After dominating the world's oil industry he turned to dominating the world. He began after 1901 to control the US medical system, which accelerated after 1910 with his sponsored Flexner Report to establish allopathic medicine (making synthetic drugs from oil derivatives). In time, all of the medical colleges and regulators were filled with Rockefeller placemen. Naturopaths were targeted for smearing, castigation, de-funding, legal attacks, exile and even assassination. People who cured cancer were especially vilified.

After this he began the take-over of the education system in 1908, starting with controlling history. Gradually Rockefeller was able to dominate school curricula and college studies.

The UN is fully under the control of the Rockefellers and serves to implement policies strategised in Rockefeller think tanks, such as the Club of Rome (where climate alarmism began).

The Rothschilds

This family is Ashkenazi Jewish.

The Rothschilds are the richest people on Earth and have been controlling governments of various kinds since the mid-1700s. They do this by controlling the money supply and loans that governments require, especially for war. The Rothschilds often funded both sides of a given war to ensure the most profits.

In 1776 the Rothschilds established the Bavarian Illuminati managed by Adam Weishaupt. After this subversive movement was discovered it morphed into various new incarnations, such as the Jacobins in revolutionary France or the Carbonari in Italy.

²² For example, chemotherapy is officially only 3% effective (that is 97% useless). Worse, it is highly toxic and destroys the immune system.

The Rothschilds control all the central banks and the Bank of International Settlements. They control all aspects of trade especially gold, silver, and diamonds but many other commodities. They control the City of London, a separate sovereign entity within Metropolitan London, which controls the British government.

There are many other figures of varying rank in Elite sub-systems, such as Klaus Schwab, Bill Gates, Henry Kissinger (dcd.), George Soros etc. Sometimes factions battle with each other and make mistakes but they are all motivated to establish a new world order.

Methods being used to implement these goals

Federalisation

The Elite intend to develop increasing federalisation so that individual countries are swept up into confederations. One model for this was the Soviet Union, a totalitarian, Collectivist State governing multiple nations. Another model is the United States, a federalist republic of multiple previously independent states. The EU is an example of this which was originally averred to become '*the United States of Europe*'.²³ From its beginnings it was intended to be a united federalist system of nations with a single fiscal system, a single currency, a single unelected government (the Commission) with a single army and no borders.

Eventually, the confederations are to be united in a single world government.

Political ideologies

Marxism

Marxism, and its scions Socialism and Social Democracy, is the chief political system used to promote the ideals of the Cabal.

The strategies of Marxism include:

- Destruction of the family unit.
- Destruction of capitalism; replaced by a centralised, regulated, planned economy and Collectivisation.
- Destruction of religion (especially Christianity).
- Destruction of the bourgeoisie (materialistic, prosperous middle class).
- A focus upon social revolution, usually by violence but also by stealth (cf. Cultural Marxism).

The prototype of the system intended for the world was the USSR soviet system. This was a totalitarian, brutal regime (mostly led by Jews)²⁴ that had the following results:

- It sought to destroy Christianity in Russia. It demolished thousands of historic churches and murdered (after torture) millions of Christians.
- It ruled as an aggressive totalitarian administration.
- It was based on a futile planned economy and Collectivisation. This highly centralised, heavily bureaucratic system was doomed to failure.

²³ As affirmed by multiple EU pioneers.

²⁴ Marx was Jewish; Lenin was half Jewish; Trotsky was Jewish; most Bolshevik leaders were Jewish; the Cheka was 85% Jewish etc. Jewish bankers financed the Bolshevik revolution with gold facilitated by Jacob Schiff. No synagogues were destroyed in the revolution but thousands of churches were. One of the first acts was to criminalise anti-Semitism. Chief targets for murder and torture were priests, nuns, choirboys and prominent Christian thinkers. The brutal form of murder was straight out of the principles of the Talmud (such as treating Goys like animals).

- It led to terror and genocide. Perhaps 50 million people were murdered; many in medieval brutal ways. The Ukrainian Holodomor killed 10 million Kulaks alone, led by a single Jew named Genrikh Yagoda.

Cultural Marxism

This developed when it became apparent that the West was not going to establish Marxist revolutions after WWI. So it was proposed that Marxists entertain a slow, stealth approach to infiltrate all aspects of Western culture with Marxist placemen and gradually take over all the institutions of Western societies. Following ideas by Gramsci, the principles were developed in the Frankfurt School in the 1930s and then later in America.

Over time, especially after the social revolution of the 1960s, Marxists did indeed take over all the institutions of Western nations (*'the long march through the institutions'*). Today, education, academia, the media, the judiciary, the government, civil service, police forces etc. are dominated by Left-Wing progressives that seek to destroy the Christian and traditional principles of British society.

Modern Liberalism

Liberalism is a difficult and confusing term today as it has developed multiple meanings. Historically it was centred upon liberty and freedom in society (Classical Liberalism). Today it more often focuses upon a Progressive Socialist agenda.

Liberalism in religion was a means of denying Biblical authority and destroying traditional conservative doctrines. Social liberalism today means being unrestricted by social norms, absolute truth, respect for others and traditional regulations. So liberalism is the opposite of conservative values, traditional norms, absolute truth, historic social cohesion etc.

Mass immigration

The Kalergi Plan to flood Western nations (originally Europe for Coudenhove Kalergi) with foreign migrants to destroy national cultural identity and create a homogenous mass with no loyalty to the host country. This better enables the control of that country.

Philosophical ideologies

Postmodernism

Postmodernism is Cultural Marxism focused upon aesthetics, philosophy, and epistemology. It leads to a focus upon self-interest, self-expression, self-esteem and independence. It criticises or denies previously accepted norms, such as scientific consensus, religious-based ethics, moral axioms, traditional social values, and conservative ideas. Thus it demolishes the idea of absolute truth and replaces it with 'my truth'; everyone has their own truth, which is right for them. This leads to endless 'selfism', cognitive instability and frequently a divorce from reality.

All of this helps to promote Cultural Marxism, increase social schism and enhance societal destabilisation.

Social policies: Climate alarmism

The demands of this fake catastrophism ideology affects every area of human life and will destroy modern industrialised society. The Elite seek to do this in order to develop a whole new societal order built upon the ruins of the previous society.

The nexus of climate change policies today are centred in the Net-Zero anthropogenic carbon emissions nonsense. It is nonsense because every human being breathes CO₂ out every minute. It also ignores natural occurrences, such as that termites produce more

greenhouse gases than mankind or that a single volcanic eruption can emit more CO₂ than all human history.

I won't analyse climate change policies here having done it many times before. I will simply identify some of the sustainability goals that are being demanded by the UN Agenda 2030, the WEF and our current government.

- Reduction of UK airports to three (Belfast, Heathrow, Glasgow) by 2030. Reduction to one by 2050 (Heathrow).
- Allowing people one flight every three years by 2030.
- Greatly restricting people's mobility by waging war on cars. Councils do this through a variety of means: new parking charge areas, increasing the cost of parking, denying vehicular access to certain roads, tolls, 20mph schemes etc.
- Change towns in order to greatly restrict car movement: ULEZ²⁵ schemes, LTN²⁶ schemes, 15-minute cities,²⁷ C40 cities etc. The purpose of all these is to gradually force people into zoned areas where they can be effectively controlled. Eventually movement outside your zone will be forbidden. Ironically, these measures worsen air pollution.
- Forbidding all diesel and petrol vehicles in favour of electric vehicles (EVs). I have previously explained that these are useless. They cost far more; they need far more time on maintenance; they are quickly devalued; the battery life is often less than ten years and new ones cost over £20,000; range is very poor; charging facilities are few and far between and often have large queues; the grid could not cope if everyone had an EV; bridges, car parks and other infrastructure are being damaged by the sheer weight of these vehicles; tyre friction, due to battery weight, causes huge particulate pollution. But worse than all this EVs suddenly catch fire and explode. Hundreds of people have been killed by them and many properties destroyed; Luton airport is just one example.²⁸ Cargo ships have been sunk by a single EV exploding. What will kill this policy demand is that insurance firms are now starting to refuse to insure EVs or charge exorbitant premiums. The joke is that they are far more environmentally polluting than petrol cars, including CO₂ emissions, if the mining for battery components (especially cobalt and lithium) is taken into account.
- Terminating glass production by 2050.
- Terminating cement and steel production by 2050. Buildings to be built with rammed earth. Some UN politicians have demanded that houses be built as mud huts with thatched roofs.
- Only allowing people three new items of clothing per year.
- Abolishing gas and oil central heating systems.
- Abolishing gas boilers and cookers.
- Insisting on heat pumps to heat homes when they don't work,²⁹ create noise pollution and cost a fortune.

²⁵ Ultra Low Emission Zones; fines charged to older cars on the pretence of purifying the air (it has led to worsening air pollution in Glasgow).

²⁶ Low Traffic Neighbourhood; schemes to restrict cars from certain roads by putting planters and other obstacles across certain roads. This forces cars to drive further on to arterial roads into and out of the city instead of crossing to adjacent areas.

²⁷ Breaking down a city into zones and prohibiting car travel across those zones. People are supposed to stay in their 15-minute zone where everything they need is supposed to be available (it is not). This causes heavy build up of traffic and jams on arterial roads into and out of the city. It increases air pollution.

²⁸ The original burning vehicle was a Range Rover hybrid (EV/diesel). The establishment said that it was a diesel car.

²⁹ Most British homes are unsuited for them and can't be retrofitted with sufficient insulation to make them work. They only heat up to about 16 degrees C and often water is cool. Most homes could not fit the pipe-work into the house. The electricity cost is also prohibitive.

- Abolishing red meat beginning by 2030. Insisting that people get protein from insects which is harmful.³⁰
- Abolishing coal, gas and nuclear power stations which are all efficient and clean if new filter systems are used. These are to be replaced with solar and wind turbine systems that have a poor efficiency rating. They also do not last more than 20 years, often ten years. There is no way to recycle broken systems. Solar systems do not work with no sunshine and quickly get damaged or diminished (e.g. by moss). A heavy hail storm can destroy them. Turbines are useless. They require diesel power and electricity to function (to work various sub-systems); they rot and rust very quickly; they require constant costly maintenance; they are extremely expensive and are not cost effective without subsidies; they often collapse; they kill millions of insects, bats, and birds; they also kill cetaceans (hence many recent beached whales). Furthermore when they do produce electricity it has to be balanced by the grid system and the power is burned off as steam in power stations. The negative environmental effect transporting, constructing and maintaining one turbine and its large concrete base is huge. They are a useless catastrophe. Countries that committed to them are now reversing policy after suffering power shortages.

The net effect of all these policies will be the destruction of Western society and plunging it into the Middle Ages. Mobility will be denied. Freedom will be denied. Power will be denied. Vacations will be denied. Even warmth will be denied.

People need to wake up to what is going on right now and resist the changes being made.

Monetary policies: CBDCs

Central Bank Digital Currencies are being rolled out in certain nations already. Some have tried them and terminated them as they didn't work. Britain is due to introduce them in the next year, at least in trial zones.

If introduced and enforced this will be the termination of all societal freedoms.

CBDCs are being developed by private concerns through the central banks, which are themselves private corporations. But CBDCs will be led by governments with the force of law. The effect of this is to give huge amounts of totalitarian power to governments due to the complete control and surveillance of people's money.

For example:

- Every purchase will be monitored.
- Coupled with government strictures (e.g. Net-Zero or social credit schemes) people will be automatically sanctioned for crossing the line. Eaten too much meat – your ability to spend will be suspended. Driven too many miles this week – your ability to spend will be suspended. You wrote a social media post criticising the government – your ability to spend will be suspended. This is already occurring in China. People who jaywalk (identified by facial recognition CCTV) get automatically fined via the CBDC without warning.
- Political dissidents will have their ability to spend terminated. The government has already done this to some political dissidents by closing bank accounts and terminating passports.
- Looking at web sites forbidden by the government will result in suspension of your money. The new Online Safety Act will facilitate this.

³⁰ They contain parasites which do not always get eliminated by cooking. Their exoskeleton is made from chitin, which causes many problems in the gut.

Transhumanism

The WEF and others are working towards changing people into cyborgs by inserting digital nano-technology into their bloodstream. This has already begun with Covid vaccines, which inserted graphene oxide nano-particles that self assemble into antennae and basic circuits. The reason for pushing more and more vaccines is to update this technology within the person. The CEO of Moderna openly stated that his vaccine put a computer operating system into people.

The WEF's Yuval Harari boasted about the level of control that can already be achieved through inserted nano-technology. This is not just constant monitoring of body functions and geographic position, but includes emotional manipulation, dominating the will and even changing memories.

The Covid vaccines also changed human DNA. As well as mRNA which reprograms cell function, there were also trillions of DNA particles to alter the genome. The full extent of this is not known; the DNA has been observed but its purpose is not understood. However, there are allegations that this change of genome allows Big Pharma to patent people since they are no longer natural species but altered organisms.

The purpose of all this is to better enable the Cabal to control populations remotely. This is more efficient than sending in the cops to arrest dissenters. Dissent can be removed at the press of a button.

Technocracy

The goal of the Cabal is total Fascism; that is the Mussolini definition of the power of the state working in tandem with corporations. The plans of the WEF are to effect the control of governments even more by corporations like Big Pharma. These are called 'stakeholders'.

Technocracy has been a movement planning the control of society since the 1930s. It could not develop at that time since technology had not advanced sufficiently; now it has.

The belief of technocrats is that politicians are inefficient leaders with many weaknesses, even if not corrupt. Far better to trust society to scientific experts; to follow the science. Thus government becomes automated and directed by technocratic 'experts'. Of course, these are not elected and represent big business rather than the people.

As well as the computer revolution and the rise of nano-digital technology there have been two great leaps forward in the technocratic ideal.

AI

Elon Musk (and he should know) warned that the greatest threat to mankind was the rise of AI.

AI is already being rolled out to control everything. In the NHS alone AI is set to dominate how people are treated. Diagnosis is to be done by remote AI and not by a GP. All the NHS systems are to be run by AI. Most administrative systems will be run by AI instead of people. It can work 24-hours a day without a salary. Millions of workers will become redundant overnight.

We already have AI writing songs (useless), writing film scripts (also useless), producing movies without actors, writing software, doing complex calculations swiftly, mimicking voices perfectly, and so on. Israel has been using AI to target missile strikes on Gaza. A complete island of a single computer system is planned to be located in international waters run by AI and nominated as an independent country. What is that for?

Robotics

Alongside AI, which is the brains of technocracy, we have robotics, which is the brawn of technocracy. Robotics are also beginning to take over all human functions. The NHS has already introduced robotic surgery.

Robots already build cars and run automotive factory functions. Robot soldiers have been created to replace human soldiers (shades of the Terminator). Robot doctors are in train. Cars are being designed to be like robots run on AI. They will drive themselves and permanently stop if you commit some misdemeanour. Insurance companies are already drawing up schemes to control insured vehicles remotely. Break a law, go too fast, fail to pay your premium on time, and your car will stop and will not start.

All of these things are to enable the Cabal to fully assert control over everything that people do, and control them remotely.

Big Pharma

This is one of the most expansive and powerful arms of the Cabal. It is not an exaggeration to say that Big Pharma controls many Western governments (as was proved in the Covid crisis). This is the *pharmakeia* that undergirds Babylon society.

One of the means of gaining influential control is by funding media organisations and medical regulators (e.g. the MHRA is 86% funded by Big Pharma creating a massive conflict of interest). Propaganda thus hides the sins of pharmaceuticals and assures everyone that they are safe and effective. Yet the number of deaths caused by drugs are in the millions. Vaccines alone have killed multi-millions of people.³¹

The difficult thing for people to accept is that Big Pharma is not concerned with healing anyone; it is all about control, making people sick and killing people. This is why products that do heal people, often very cheaply, are outlawed, smeared and forbidden on pain of jail. If you cure people of cancer you will go to jail under the 1939 Cancer Act (e.g. David Noakes).³² Yes, British Law (ruled by Big Pharma) outlaws cures for cancer.

If pharmaceuticals began curing people quickly, Big Pharma would go out of business. It does not want people cured, it wants long-term customers.

Another method of expanding the customer base is to create new ailments that require new drugs, such as ADHD and many other syndromes. Note that SIDS is caused by vaccines; most allergies result from vaccines (you can plot the parallel history on a graph).

Note that 120 years ago even poor people were physically fit. Poor Irish workers built canals, tunnels, railway bridges etc. Cancer was almost unheard of. Many of the modern diseases, allergies and syndromes did not exist. Heart disease was rare. The killers in society (respiratory diseases mostly) were due to bad social policies: overcrowding, poor sanitation, unclean water, poor food, cold houses etc. but this only affected urban areas. Rural folk were healthy. Contrary to propaganda, it was not vaccines that cured this problem but social policies to provide clean water, better housing, improved sewers, better food supply etc.

What is it that has made modern people so prone to sickness (e.g. one in three now die of cancer)? It is processed food. It is household and environmental toxins. It is water and air pollution. It is poor quality lifestyles. But instead of fixing these causes, governments put

³¹ The Salk polio vaccine of the 1950s and 60s alone gave cancer to millions through the SV40 contents.

³² David Noakes cured people of cancer using a natural protein GCMaff. He was ruined, smeared, tried and imprisoned in Britain and then France. The judge admitted that he cured cancer.

money into providing drugs to hook people on which do not cure anything but alleviate symptoms only.

We cannot discuss this further in this paper but Big Pharma was a Cabal initiative set in place after 1901 by John D Rockefeller to make drugs from his petrochemical industry and eliminate the existing naturopathic medicine practitioners by taking over all medical institutions.

Pandemics

'Pandemics' will be used to create the circumstances for major social changes achieved in a fast way. Note the trial run of the fake Covid crisis whereby martial law was instituted in the West causing lockdowns of whole populations for months on end to no good whatsoever. It was obvious that lockdowns would kill more people than they claimed to save (which they did)³³ but the Cabal ensured that fearful, mesmerised people accepted this nonsense.

False pandemics will also be used to thin populations through vaccines that kill.

Vaccines

Vaccines have been killing people for over 200 years going back to the late 1700s. Vaccines have never cured people of any disease but have caused diseases. Vaccines do not prevent disease. They have been a programme to make sick, sterilise and kill people as part of the Cabal's depopulation goals.

For example the Salk polio vaccines of the late 1950s and early 1960s gave people cancer through the SV40 component (Simian Virus 40, which is oncogenic). Flu vaccines typically contain a host of toxic ingredients including: Polysorbate 80 (oncogenic), aluminium (causes dementia), mercury (highly toxic), phenol (antifreeze), formaldehyde and many more. Why would anyone inject even one of these toxins into the bloodstream?

Social schisms

The Cabal wants society in a constant state of destabilisation. It does this to aid the destruction of Western culture, planning to build a new culture on the ashes of the old. To do this it creates factions and sets them against each other. However, the main targets for attack are: White people, boomers, Christians, conservatives, middle class and small businessmen.

Marginal groups are sponsored, directed and financed by the Elite³⁴ to have influence far beyond their normal means to cause problems in society. These include Intersectionalism, Feminism, Gay issues, Transgender issues, climate issues etc. Specific groups financed include: Black Lives Matter, Extinction Rebellion, Just Stop Oil, and so on.

Another focus for social destabilisation is migration. Illegal immigrants are supported to gain entry to the country, even aided by RNLi rescue boats and the navy, to flood the nation in huge numbers. These are then established in ghettos that do not integrate into society or accept British norms. This situation becomes a focus for social anger, especially when

³³ This is not hindsight; I wrote a paper stating this in March 2020. E.g. lockdowns created the current inflation. More kids died of suicide than Covid. Millions of people now need mental health treatment. A generation of kids had their education ruined. Hundreds of thousands of kids never went back to school. Poor people died in their millions due to the effects of lockdown in Third World countries etc.

³⁴ Such as George Soros' Open Society or the Rockefeller Foundation, the Ford Foundation, the Bill and Melinda Gates Foundation, or the Carnegie Foundation.

immigrants receive spending money and are placed in 5 star hotels but military veterans are homeless and suffering. This costs us over £5 million per day.

All of these factors aid the destabilisation of society causing breakdown, anger, desperation, and anxiety. The recent Irish and French riots are the beginning of a backlash against this.

Summary

Purpose	Item
Destroy sovereign nations. Unite countries into a single bloc.	Federalisation.
Destroy Christianity. Destroy the family unit. Destroy capitalism. Establish totalitarian Collectivism and central planning.	Marxism.
Infiltrate all Western social infrastructure and corrupt it from within to follow Socialist agendas.	Cultural Marxism.
<i>In religion:</i> denying Biblical authority and destroying traditional conservative dogma. <i>In politics:</i> focus upon a Progressive Socialist agenda. <i>In culture:</i> being unrestricted by social norms and axioms, absolute truth, respect for others and traditional regulations.	Modern Liberalism.
Destroy national cultural identity. Create a homogenous mass with no loyalty to the country.	Mass immigration.
Destroy authority of absolute truth replace it with self-interest (e.g. 'my truth').	Postmodernism.
A tool to control populations through fear, facilitate expensive programmes and steal planetary resources.	Climate alarmism.
Achieve complete social control over individuals through immediate, remote control over their money.	CBDCs.
Complete internal control over individuals by inserted nano-digital technology to manipulate the will and emotions plus constant surveillance.	Transhumanism.
Pass governance to unelected technical experts rather than politicians. Rule by scientism.	Technocracy.
Allopathic medicine. Generate huge profits from synthetic drugs. Keep people sick to maintain a market. Use vaccines to kill undesirables. Use pandemics to control society and introduce draconian laws.	Big Pharma.
Control and manipulate society by creating social factions. Set these against each other to destabilise and weaken Western culture.	Social schisms.

The great manipulation

Media

Media is manipulated to control the social narratives. In every topical area the Cabal controls the news stories to comply with its overall goals and strategies. This is part of the great brainwashing of society to believe what it is told. Frequently this narrative is the opposite of the truth, such as in the Ukraine conflict or the Covid crisis.

Every aspect of media is controlled, including the Press, TV news, journals, social commentary, and all forms of social media. All dissent is to be crushed by censorship, deletion, smear campaigns or making dissent unlawful (NB the On-Line Safety Act). Control is achieved through legislation and Cabal-controlled national regulators (like OffCom).

Education

Education is manipulated to:

- Dumb people down and prevent critical thinking.
- Condition people to accept the social narrative and be compliant to government and authority.
- Follow certain ethical programmes such as: selfishness, licentiousness, narcissism, greed etc.
- Accept new norms and axioms that are contrary to a sound mind, such as evolutionary theory or uniformitarianism.
- Favour certain political views, such as liberalism, Progressivism, Socialism.
- Criticise, question or hate views opposed to the Cabal's initiatives, especially Christianity.
- Cancel and de-platform opposing views.
- Smear critics.
- Arrest and prosecute critics. Recently a teacher went to jail for refusing to use a certain pronoun for a recently transgender girl.

Medicine

Create an unthinking trust in doctors and allopathic medicine even when both are sometimes opposed to good health. For example, no one questions chemotherapy and radiation treatment when they are an invasion of highly toxic materials into the body that destroy the immune system (the only thing that makes people well). No one questions vaccines. All these are hitting people with poisons.

The multiple times in the past when treatments given by doctors were proved to be dangerous and subsequently abolished are ignored, such as Thalidomide, Vioxx, Avandia, lobotomies, electric shock treatment, endorsing cigarette smoking and so on.

Influencers

The Cabal uses celebrities of various sorts (movie stars, presenters, academics, foundation leaders such as Bill Gates and so on) to influence the public to follow a certain strategy, such as support for the Covid vaccine (which is deadly). These are either bought and paid for or are useful gullible idiots.

It is incredible that anyone listens to them. For example Bill Gates is used as an authority on medical issues, environment issues, farming issues, vaccine issues, climate change issues and more. Yet Gates is a poorly educated, unqualified person to speak on any subject. He did not even develop Microsoft himself but stole the ideas of other people and cheated partners in building up the company. He is not even a technical expert on computers. He is just a rich kid that was used to propel an Elite objective.

The final solution

As the Bible (especially Revelation) predicts, the final shape of the take-over of the world by the Elite Cabal is as follows:

- A new world order.
- A totalitarian global empire.
- A fascist empire (nationalism working through corporatism).
- Domination of commercial interests.
- A technocratic society dominated by AI, Transhumanism and robotics.
- A kingdom completely dominated by Satan and ruled by delegated proxy authorities.
- A society devoted to Lucifer (the posh name for Satan).
- A society based upon hedonism, narcissism, selfishness, dissipation and luxury.
- A society given to immorality and licentiousness.
- A society based upon deception, lies, obfuscation and fraud, where truth is absent.
- A single ecumenical world religion based upon Satanism. Christianity persecuted to death (but a true remnant survives underground).
- A single economic, fiscal and monetary system based on CBDCs.
- A social credit system to ensure conformity.
- A fully surveilled society. Facial recognition CCTV, monitoring of all devices, monitoring of humans through implanted nano-systems.
- Remote control of humanity through implanted nano-systems.

Conclusion

Sadly, these are the facts regarding what is happening in society today. Ignoring them will make you vulnerable to some future attack on your freedom; better to be wise and prepare.

There are some that know these facts but believe that there will be a natural non-violent rising up of the people to overcome the Elite cabal and win. Would that it was true. Nobody was able to stop our own police force acting like the Gestapo in the Covid crisis. How would you stop stratospheric aerosol injection (chemtrails)? How would an unarmed public stop the army? How would you defend crowds from directed energy weapons (these were used on protestors as far back as the Greenham Common demonstrations). A victorious people's movement is wishful thinking. False positivism leads to a frustration of useful opposition.

I cannot be 100% certain but all the evidence seems to me to point to the fact that we are already in the times mentioned in Revelation – the development of the beast world government. If so, then there is no popular uprising. Deliverance for all from the Cabal comes with the return of Christ in glory. After that is the Final Judgement and only followers of Christ will be saved from that.

What is vital is to stand on the truth in any given situation. Resist all encroaches upon your freedom in simple ways; such as using cash instead of cards and transfers to make the introduction of CBDCs difficult (this is being understood; cash purchases have recently increased by 9 and 19% in different settings). Refuse illegal government restrictions, such as lockdowns, curtailing visiting loved ones, or cancelling church meetings. Prepare for bad times by stockpiling food, batteries, torches, wind up radios, alternative heating etc.

Pass on the truth to as many people as possible so that more understand what is going on instead of just moaning that the world is mad.

Most of all, seek the word of God in the Bible and plead for his mercy and truth in the Lord Jesus Christ.

For Christians, use this time to stand for the truth in all areas. This time provides opportunities to increase your testimony to God. Be watchful in prayer, seek God's will and be focused upon the Lord Jesus.
